

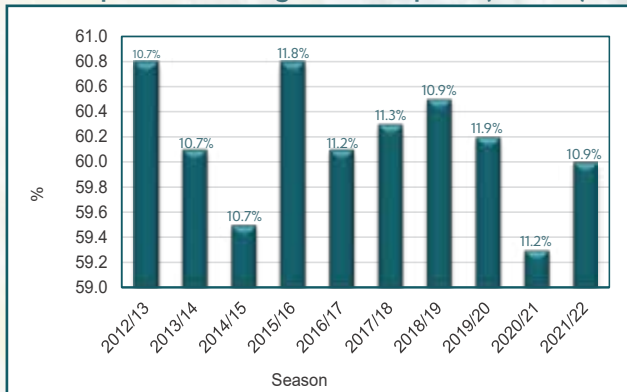

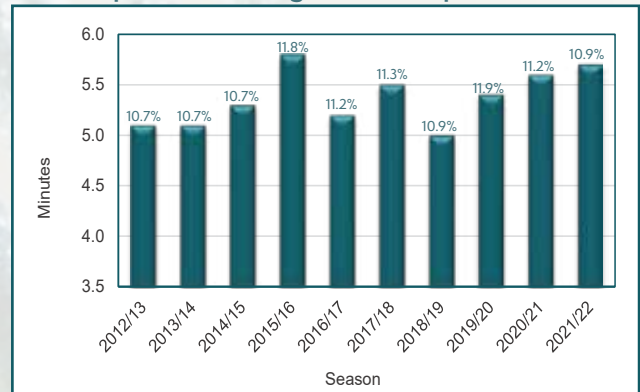

Graph 27a-h: Comparison of rheological quality over ten seasons (Flour protein content (12% mb) is indicated above each bar)

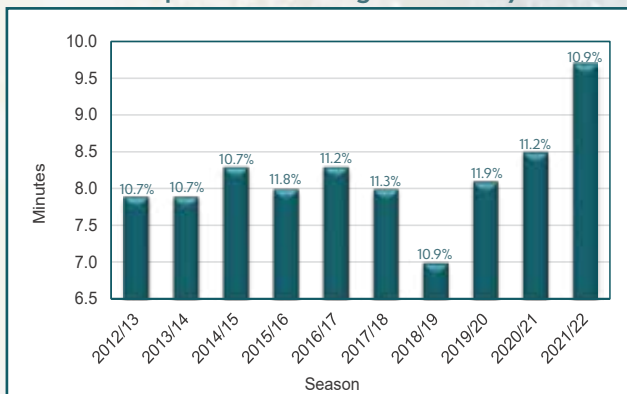

Graph 27a: Farinogram absorption (14%mb)

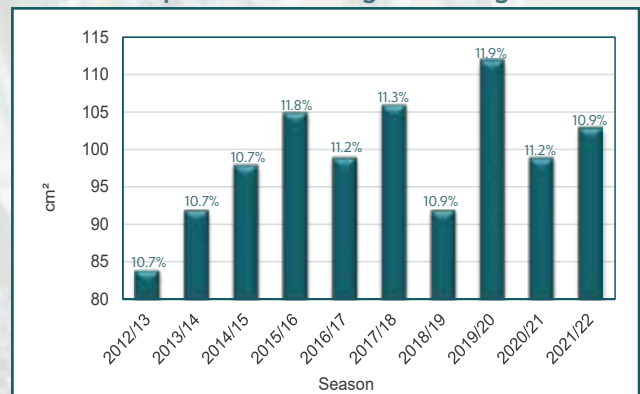

Graph 27b: Farinogram development time

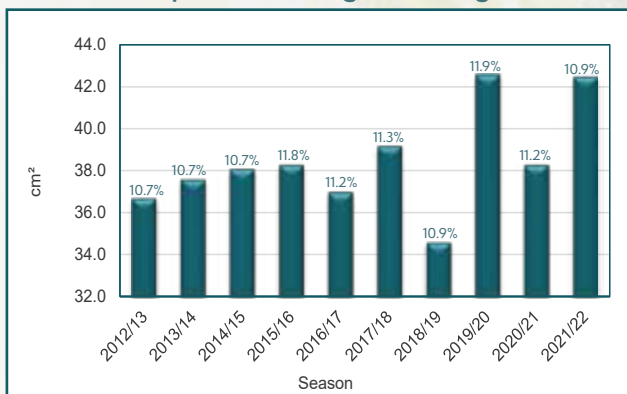

Graph 27c: Farinogram stability

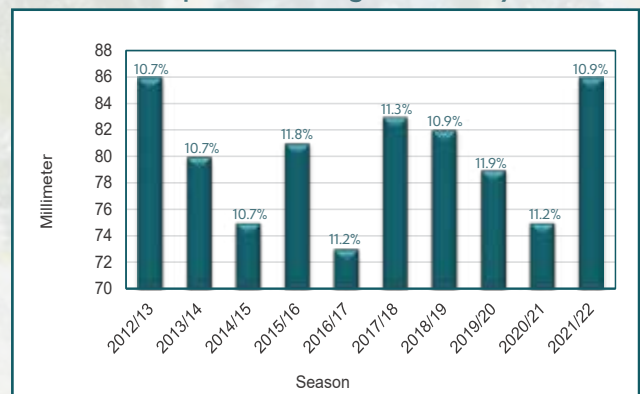

Graph 27d: Extensogram strength

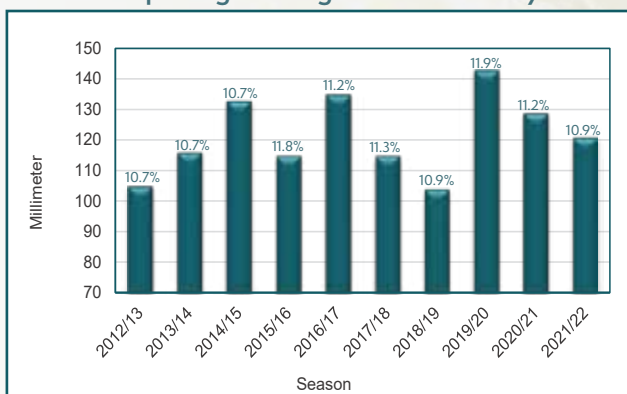

Graph 27e: Alveogram strength

Graph 27f: Alveogram stability

Graph 27g: Alveogram distensibility

Graph 27h: Alveogram P/L
